

# Webmaster's Monthly

## Tip of the Month...

### Naming content pages and events

Here are a couple of hints for naming your events and content pages.

- Always give your content pages a unique name — The CMS is a shared system, meaning all the pages you create are available to everyone else on the system. If everyone makes a Contact Us page there is no way tell one from another. What I would suggest is to use the Aerie/Auxiliary number or name in the title of each page. For example: #1234 Home Page
- Include the time of the event in the event name — This comes from the webmaster of the Colorado State website. If you include the time of the event with the title, the time will appear when a person hovers over the date on the calendar. Making it useful for your visitors.

If you have a suggestion for a Tip of the Month, please contact [dstacey@foe.com](mailto:dstacey@foe.com)

## Training...

**Online Training:**  
Monday April 13th, 2009 8:00pm EST

Sunday April 19th, 2009 8:00pm EST

If you would like attend one of the scheduled training sessions, please contact [dstacey@foe.com](mailto:dstacey@foe.com)

## Mindbender...

One man has a nice portrait in his library. When he was asked whom it represented, he replied:

Uncles and brothers  
Have I none,  
But that man's father  
Is my father's son.

What relation was the subject of the portrait to that man?

(Answer next month)

## CMS Improvements...

Where do you feel the CMS is lacking? What would be a great feature to add? What should the next theme be? What bug is bugging you? Send your suggestions to [dstacey@foe.com](mailto:dstacey@foe.com)

## Site of the Month...

By popular request Weeki Wachee #4372 is our site of the month. Boasting a full calendar and plenty of useful content, you would do well to have a website as good as Weeki Wachee's.

Weeki Wachee #4372  
<http://4372.foe.com/>
