

# Webmaster's Monthly

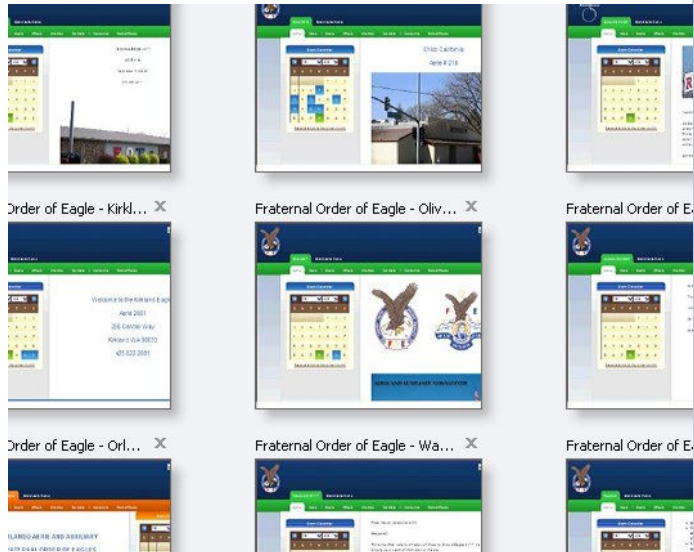

Thanks to all of you who made this launch so successful.

## Dear Webmasters...

On April 28th the new tools were released. Now there are over 130 sites in the system with more being added every day.

We have also seen great progress on the sites as well. 400+ plus pages created and calendars filling up are a good sign.

As we continue into the next month we want to encourage you to keep up your hard work. Remember if you need help just ask.

*Thank you again from your Grand Aerie Webmasters*

## Site of the Month...

This area is reserved to highlight great sites. This month's site is: [West Seattle #2643](#)

The home page is what made me pick this site. Important information, such as Aerie name, address, and hours, are available to the user as soon as the page loads, and that info is presented in an attractive way. Well done West Seattle.

*If you have seen a site that you think would like to nominate or if you wish to nominate your own. Please send the site name to [dstacey@foe.com](mailto:dstacey@foe.com).*

## Guide Version 1.1

FRATERNAL ORDER OF EAGLES  
Content Administrator Guide  
Version 1.1

A new version of the guide is now available, please e-mail [dstacey@foe.com](mailto:dstacey@foe.com) to receive a revised copy. There have been some minor edits along with an extended section on setting up navigation. This guide also reflects any changes that happened in the system within the last month. This is a replacement for the base guide only not the advanced guide.

*All changes to this guide were based on your suggestions. If you have an idea on how to improve the guide or the system itself please send it to [dstacey@foe.com](mailto:dstacey@foe.com).*

## Tip of the Month:

You can change the theme of your site. To access these themes go to Manage Sites -> Site List, click edit next to your site name, and select the theme from the dropdown menu. When you hit submit this will update your site and your new theme will be active.
