

Our Town we like it here

Our Town - we like it here.

We like its public sector...

...our fire fighters and law officers,
...our teachers and public employees,
...our judges and elected officials,

- none from duty swerving, all the people serving.

We like its private sector...

...our local merchants and businesses,
...our news media and skilled trades,
...our helping and healing professions,

- folks who serve us well,
and amongst us dwell.

We like its independent sector...

...our churches and our charities,
...our women's clubs and veterans posts,
...our fraternal and service organizations,

- all sisters and brothers,
reaching out to help others.

We like its inter-personal sector...

...our good friends and good neighbors,
...our young folks and our old folks,
...and those somewhere in-between,

- with each other sharing,
about each other caring.

Our Town - you'll like it, too.

- Bob Hansen
